

Audio Visual Software

Audacity: sophisticated intuitive sound recording and manipulation software for Windows and Mac; free to download. <https://www.audacityteam.org/download/>

Pictures to Exe 9: Audio Visual preparation and creation, used by 95% of amateur AV Workers; De-Luxe version £112 for Windows only; Mac version in preparation; Basic version is cheaper than the De-Luxe version but does not allow manipulation of sound tracks - essential for sophisticated AV sequences. A free trial download is available. <https://www.wnsoft.com/en/picturestoexe/><https://www.wnsoft.com/en/picturestoexe/>

FastStone Image Viewer: Slide show, image capture for Windows; free to download. <http://faststone.org/>

NCH PhotoStage: Slide show sequence creation for Windows or Mac; £40 for Pro Edition.. <https://www.nchsoftware.com/slideshow/tutorial.html>

ProShow Gold and Producer: Proshow Gold is good but lacks facilities, Producer is too expensive.; Gold £57, Producer £200

Photos for Mac/iOS: Internet search: PhotosforMac

Fotomajico: Free to download for Mac; Internet search: iSkySoft SlideshowMaker
