

THE NEW MASTERS

MACRO MASTERS

A DEFINITION

Macro photos are images in which the magnification of the subject is life size or greater.

Macro photography is often used to describe images where there is a slightly larger subject and all the traits of extreme close up photography are present – focusing on the detail to achieve a dramatic effect (Adobe)

Macro photography is often used to describe images where there is a slightly larger subject and all the traits of extreme close up photography are present – focusing on the detail to achieve a dramatic effect (Adobe)

Photography producing photographs of small items larger than life size (Oxford Dictionary)

FOR OUR COMPETITION

“We are looking for close-up detail of anything you cannot see with the naked eye.

That could include shape, form, colour, abstract, insects, etc.”

SOME INSPIRATIONAL IMAGES TO ENJOY

EXTENSION TUBES

There are many different brands out there: you must check compatibility with your camera.

Also, please ensure that that you buy tubes that are AF compatible.

On Amazon, prices range from £12 to £100.

You can purchase a good set for £20 to £30 for any brand of camera (JJC, Neewer, Viltrox)

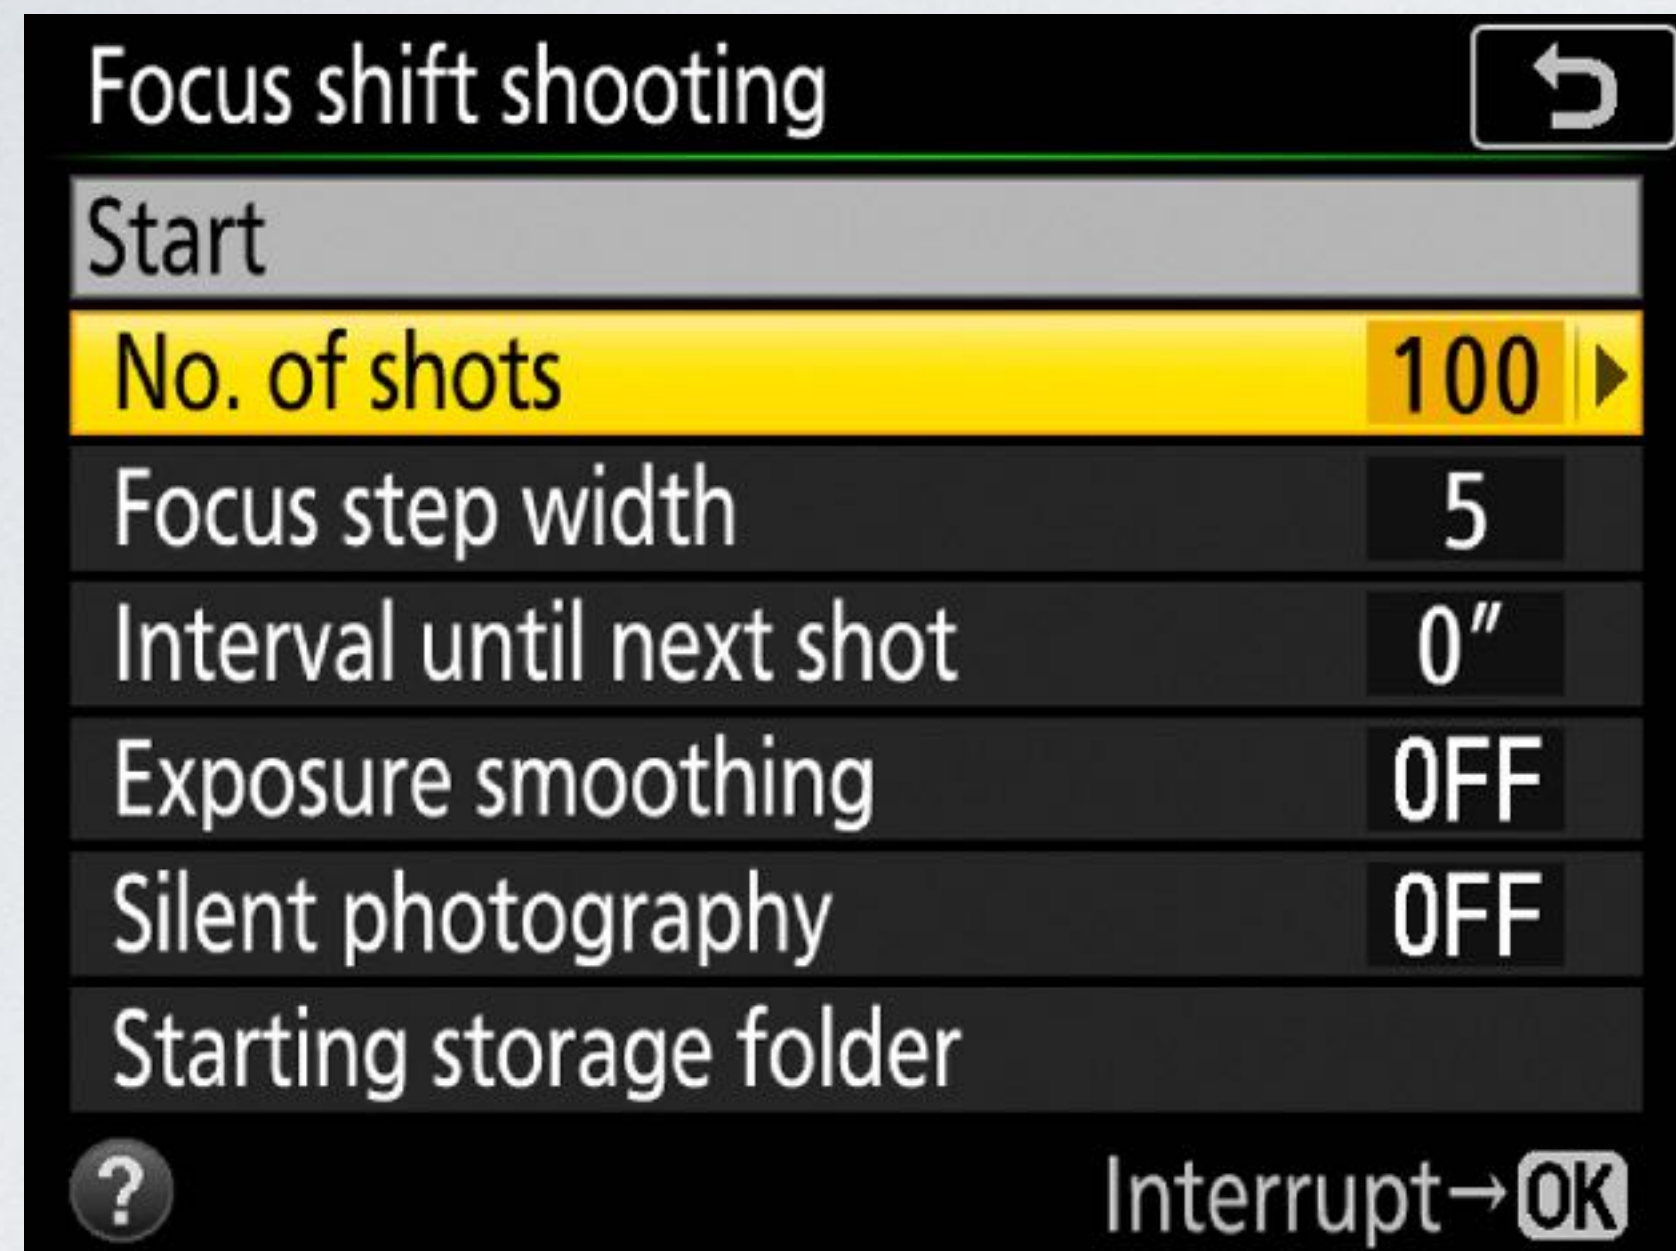

“The two most engaging powers of a photograph are to make new things familiar and familiar things new.”

– William Thackeray
